

City Parks and Landscape Areas Irrigation Schedules 11/1/16-4/1/17

Landscape Areas – All landscape areas including City owned medians, parkways, and facilities are on a one day schedule which is Wednesday nights with a water window between 10pm and 6am. Exceptions are most new landscape medians and recently removed turf areas that are now a drip system which are on two nights, Sunday and Wednesday, to accommodate the longer watering time for drip tubing to be spread over the two nights to prevent water runoff and have better percolation.

Parks – Parks that do not have sport fields are watering one night and showing enough water savings to allow a second night of watering on the sport fields to ensure safe playing surfaces for both the sports user groups and the public. Even with the extra field watering night, the City is still showing significant water savings overall in Parks. Most parks have long watering window times due to having upwards of 30-40 irrigation stations per site. Arovista Park is another exception due to that it uses non-potable water from a well in the Brea Creek Golf Course and allows the City to water extra at that park without effecting water savings.

Individual Park Schedules

Arovista Park West Side - *Well water* Sun., Mon., Wed., 8:45pm-5:53am, Sports Field extra night Thurs. 10:15pm-5:11am

Arovista Park East Side - *Well water* Sun., Mon., Wed., 10:15pm-6:27am
